

# Photographer

## Scouts Section

Choose one of the two following options. Complete all the tasks for your chosen option. Bring all evidence into your Scout meeting so it can be signed off.

### Option 1: Still Photography

#### Do at home:

Requirement	Done
<p>Produce 12 photographs, featuring at least two of these photographic techniques: portrait, still life (or similar), landscape or seascape, sport or action, or timelapse.</p> <p>OR</p> <p>Produce six black and white photographs, based on a theme of your choice. Explain the steps you took to create them and the impact of using black and white as an alternative to colour images. You could produce high quality prints on photographic paper or present them on screen.</p>	
<p>Edit a selection of your images, using editing software on a computer or using an app on a smartphone. This could include cropping, colour, contrast or light levels. Explain what you have changed and how it improved your image.</p>	

#### Do at Scouts:

Requirement	Done
<p>Show that you know the main settings on a digital camera or a smartphone camera. This should include focus and exposure control, and flash settings.</p> <p>Explain the impact of shutter speed and aperture size on the image.</p>	
<p>Describe what accessories are available to use with digital cameras or smartphone cameras.</p>

## Scouts Section

### Do at Scouts:

#### Requirement

#### Done

Diagnose typical faults that happen at the photographing or editing stages, such as over or under exposure and high or low contrast. Explain how to reduce camera shake and how to respond to subject movement.

Show that you know how to care for a digital camera or smartphone camera.

### Option 2: Video Photography

### Do at home:

#### Requirement

#### Done

Produce at least two short films from two of the following categories.  
(Documentary, Music Video, Drama, Comedy, Advertisement, Training Film)  
Create a storyboard and script for each of these. Edit the film using editing software on a computer or a smartphone app.

Show that you understand the following;

- Camera Techniques such as panning, zooming, close-ups, long shots and using additional lighting
- Production techniques such as editing, how to avoid jump cuts and maintaining continuity
